ALI REHMAN

Kendall Park, NJ • moosaar2001@gmail.com • github.com/moosaar2004 • linkedin.com/in/alimoosarehman/

PROFESSIONAL SUMMARY

Rutgers University Computer Science graduate focused on backend and full-stack engineering. Built a deployed pharmacy workflow application used by staff to process approximately 100 prescriptions daily, with a reported 30% reduction in processing time. Experience with Flask, Python, MySQL, REST APIs, concurrent systems, and applied machine learning.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C, C++, HTML, CSS

Frameworks & tools: Flask, MySQL, REST APIs, Git, Linux; working familiarity with React, TypeScript and Node.js

Focus areas: Backend systems, database design, transaction handling, heuristic search, applied ML

SELECTED ENGINEERING WORK

PRESCRIPTION REFILL MANAGEMENT SYSTEM | Full-stack application

- Designed and deployed a pharmacy refill workflow application with Python, Flask, MySQL and JavaScript.
- Supported staff handling approximately 100 prescriptions per day; reported a 30% reduction in processing time compared with the prior manual workflow.
- Built database-backed workflow functionality and API-driven operations for day-to-day staff use.

BUYME REAL-TIME AUCTION PLATFORM | Team project

- Developed a database-backed auction platform with concurrent bid handling and transaction-oriented server-side validation.
- Worked on a collaborative engineering project involving reliable bidding behavior and data consistency.

AI MEAL PLANNER | Applied machine learning

- Created a meal-planning system combining nutritional and budget constraints with heuristic search and machine learning.
- Integrated external nutrition data from the USDA FoodData Central API through a Flask-based application.

ADDITIONAL TECHNICAL PROJECTS

Secure Remote Logger and CryptoStream — Java security and secure communication coursework; Android Photo Management App — Java-based mobile application. See GitHub for publicly available projects.

EDUCATION

RUTGERS UNIVERSITY | B.S. Computer Science

GPA 3.62 • Dean’s List • Minor in Data Science (reported in earlier feedback; confirm before public use)
